BIG BRAINS

LETTER OF RECOMMENDATION

To whom it may concern,

It is with great pleasure that I recommend **Zoha Khawaja** for any future academic or professional opportunity. **Zoha Khawaja** completed the **Artificial Intelligence And Machine Learning** internship program at **Big Brains,** spanning 30 days, and consistently demonstrated strong ability, discipline, and a genuine eagerness to learn throughout the program.

Throughout the program, **Zoha Khawaja** worked through a structured sequence of hands-on tasks in the AI/ML domain, consistently applying the concepts covered in the program to practical problems. This gave a clear, first-hand view of the problem-solving approach and attention to detail behind the work, qualities that do not always come through on paper but matter a great deal in a real team setting.

Beyond day-to-day performance, **Zoha Khawaja** also sat our internal recommendation-letter assessment, a timed test covering the core concepts taught throughout the internship, and passed with **a score of 90%.** This result reflects a genuine, well-rounded understanding of the material and is a strong indicator of how quickly and thoroughly new technical concepts are absorbed under time pressure.

I therefore recommend **Zoha Khawaja** without reservation, and am confident the same dedication and quality of work will carry into any future role. I am happy to be contacted directly for any further detail.
